Distributor and manufacturer of dietary supplements and products for the medical industry is looking for new products and cooperation opportunities

Polish company is a distributor manufacturer of dietary supplements and products for the medical industry. All raw materials for its products (as well as research) are imported from Switzerland, while the entire production process takes place in Poland. Almost all products are manufactured on the same machines as medicines - the company use machines and production infrastructure of Eubioco Laboratorium Galenowe Olsztyn as it meets the most important European standards for the production of medicines and supplements. The company has GMP Certificates. The laboratory has the latest technologies to produce the best quality assortment, well-developed research and development facilities and as well implemented HACCP. The company is looking for a partner willing to develop under its brand as well as a partner that wants to enter the Polish pharmaceutical market.

Trading company specialized in children's toys and outdoor playground equipment searches for producers and suppliers under distribution services agreement

Founded in 2019, the Hungarian company is specialized mostly in education (IT products, robotics, simulators); health (simulators, equipments, accessories, laboratory equipments); agriculture (vertical farming, tower framing, equipment, fertilizers, irrigation, greenhouse); and in special equipment (diving equipment, firetrucks, special trucks, industrial equipment, simulators). Their team is specialized in public procurement and works with both private companies and governmental institutions. The daily sales are made on their web shops. The company is present in the Eastern European markets. As the company sells educational equipment and technologies in general, it seeks business partners that produce these products to have a positive impact on children and the

people who need them. The company is looking for business partners in the medium to long term, to be able to satisfy their customers' needs constantly. The potential partners should offer quality products, competitive prices, and be open about the East European market and the legislation to be followed.
